

Make Space for Life - the Smart Way

New homes from The Providence Group are designed with your life in mind. Our 2018 **e² Crafted** program is focused on **energy efficiency** and environmental awareness - combining intelligent crafting and smart features to make sure your new home is easier, more efficient and more comfortable for you to own and enjoy. Plus, lasting craftsmanship and easy low maintenance are built right in so you can look forward to all the years ahead. Now that's the smart way to make space for life.
