

Homesite 215 offers an exceptional opportunity to build within the Vintage Collection at Waterhaven, where intentional design meets effortless living. This rear-entry homesite is designed for those who value both privacy and connection, with floor plans that center around a private courtyard, creating a natural extension of the home.

Inside, the main level is thoughtfully arranged with an open kitchen, dining, and family room layout that feels both functional and refined. The owner's suite on the main level serves as a true retreat, complete with a spa-inspired bath and a sense of separation from the rest of the home. Options like a covered porch or sliding glass doors enhance the indoor-outdoor experience, making entertaining or everyday living feel seamless.

The upper level provides added flexibility with two secondary bedrooms, a shared bath, and a loft space that can adapt to your needs, along with the option for an additional bedroom or bonus room. With abundant natural light and a rear-entry two-car garage, every detail has been considered.

Positioned within Waterhaven, Homesite 215 blends elevated design with a convenient Cumming location, offering a refined path to personalized living.
